- 20+ React Projects

Professional Summary

Passionate and self-driven Full-Stack Developer with hands-on experience building responsive, user-friendly web applications using React.js, Node.js, Firebase, and modern JavaScript. Delivered 20+ real-world projects from concept to deployment. Currently pursuing a BS in Computer Science at GCU Faisalabad, actively seeking internship opportunities to contribute to impactful software teams.

Featured Projects

Food Express App

[React.js](#) • [CSS3](#) • [JavaScript](#)

A full-featured food delivery application with menu browsing, cart management, and order tracking. Delivered a smooth, responsive user experience across devices.

Portfolio Website

[React.js](#) • [CSS3](#) • [JavaScript](#)

Responsive personal portfolio with dark/light mode, smooth animations, and project filtering. Designed to effectively showcase skills and projects to recruiters.

Event Registration Platform

[React.js](#) • [Firebase](#) • [CSS3](#)

Event management platform featuring registration forms, attendee tracking, and real-time Firebase integration with client-side form validation and user feedback.

Career Goals

- Secure a software engineering internship to gain professional experience and contribute to real-world projects.
- Deepen full-stack expertise in both frontend and backend to build complete, scalable production-grade applications.
- Strengthen computer science fundamentals through formal education alongside continuous hands-on development.
